In conjunction with the 61st Commission on the Status of Women, the Group of Friends of the Family together with civil society, is pleased to host an event on the theme "The family, child well-being, and the protection and empowerment of girls."

The family is the safest place for children to grow to maturity, particularly girls and special need children. The social science about the benefits of the family for child development is overwhelming, and replicates across borders, racial, religious, and cultural divides.

In order to empower girls from their earliest stages it is essential for governments to do everything in their power and within their means to strengthen and protect the family as the institution that has been empirically shown to provide the safest and most nurturing place for children, in particular girls and those challenged with disabilities, to flourish.

Organized by the 25 member states of the Group of Friends of the Family which includes: Bangladesh, Belarus, Comoros, Egypt, Indonesia, Iran, Iraq, Kuwait, Kyrgyzstan, Libya, Malaysia, Nicaragua, Nigeria, Oman, Pakistan, Qatar, Russian Federation, Saudi Arabia, Somalia, Sudan, Tajikistan, Turkmenistan, Yemen, Uganda, Zimbabwe.

March 21 is World Down Syndrome Day, WDSD, a global awareness day which has been officially observed by the United Nations since 2012.
